Grecian Planters

For all seasons

Free gift with each purchase...

A Grecian Planter stands 13 inches high, 14 inches square, 8 inches deep. This Grecian Planter comes completely assembled, powder coated, and beautiful. Each design is first carved in hardwood. The models are then used to form the sand molds into which aluminum is cast. Sand casting produces surfaces which have a lot of texture and character. These surfaces are not to be revealed, but rather are revealed in the charming imperfections inherent in the process. The Grecian Planter is then finished with a light grey primer and Satin Black or Gloss White or powder coated for a tough, durable finish.

Throughout my years of travel...
